

MEGA HOPPER

More room, less prep work

Enjoy the perks of a wider hopper chute by placing in whole fruits and vegetables instead of chopping them into pieces.

All in one.

A complete juicing system from start to finish,
from chopping to juicing.

H200 Specification

HUROM

SIMPLY PERFECT H200

MEGA HOPPER

Automatically cut, inserted, and extracted

Introducing the newly designed Trimming Wing, cutting and pushing the ingredients inside, which means you don't have to

Natural flavors & nutrients

Hurom juice

The colors of nature

Minimal friction and heat placed on ingredients give you the vibrancy of nature, as is.

Not your everyday nutrients

Enjoy nutrition from even the seeds and peels

One simple glass of green juice

Enjoy a variety of nutrients in just one glass of Hurom juice

Slow Squeezing Technology

The slowly rotating screw squeezes and extracts nutrients while generating a minimal amount of frictional heat and oxidization, keeping taste, colors, and nutrients intact.

Simplified design for easy assembly

The design provides pre-determined grooves that fit together when the Mega Hopper Set is placed onto the body, for a perfect fit every time.

Clean up made easy

Specially designed strainers minimize pulp build-up between the strainer gaps for a quick, easy, and thorough wash.

Hopper Chute for continuous juicing

Keep adding ingredients through the provided chute, while the juicer is juicing.
